About The Copia Group

The Copia Group is an investment management firm supporting innovative companies across fintech, blockchain, AI, digital infrastructure, and emerging technology sectors.

Through strategic investments and partnerships, we help accelerate the growth of transformative businesses by providing capital, strategic guidance, and operational support. Our portfolio includes companies building next-generation software platforms, financial technologies, decentralized systems, and AI-driven products that are reshaping industries worldwide.

We are seeking a visionary **Chief Technology Officer (CTO)** to define technology strategy, lead world-class engineering organizations, and drive innovation across a growing portfolio of technology-driven initiatives.

The Opportunity

As CTO, you will serve as the senior technology leader responsible for shaping technical vision, engineering culture, platform strategy, and long-term innovation initiatives.

You will partner closely with executive leadership, product teams, investors, and engineering leaders to build scalable technology organizations, evaluate emerging technologies, and ensure the successful execution of strategic business objectives.

This role combines executive leadership, technical expertise, organizational development, and innovation management.

What You'll Do

Executive Technology Leadership

- Define and execute the company's long-term technology vision and strategy
- Align technology investments with business goals and growth initiatives
- Serve as a key member of the executive leadership team
- Advise stakeholders on technology opportunities, risks, and strategic decisions
- Represent technology initiatives to investors, partners, and executive leadership

Engineering Organization Leadership

- Build, lead, and scale high-performing engineering organizations
- Recruit, develop, and retain top engineering talent
- Establish engineering processes, standards, and operational excellence
- Foster a culture of innovation, accountability, collaboration, and continuous learning
- Develop leadership capabilities across engineering management teams

Architecture & Technology Strategy

- Oversee platform architecture, infrastructure strategy, and technical roadmaps
- Guide critical architectural decisions across software, cloud, AI, and blockchain initiatives
- Ensure systems are scalable, secure, resilient, and future-ready
- Drive modernization efforts and technology transformation programs
- Evaluate emerging technologies and identify competitive advantages

Product & Innovation

- Collaborate with Product Leadership to align technical execution with customer needs
- Support the development of innovative products and market-leading solutions
- Drive research and experimentation across AI, blockchain, cloud, and emerging technologies
- Promote data-driven decision-making and technical innovation
- Establish frameworks for rapid iteration and product scalability

Security, Governance & Operations

- Oversee cybersecurity, compliance, and risk management initiatives
 - Establish governance frameworks for technology operations
 - Ensure reliability, availability, and operational excellence across platforms
 - Support business continuity and disaster recovery planning
 - Monitor technology performance, KPIs, and operational metrics
-

What We're Looking For

Required Qualifications

Leadership Experience

- 15+ years of software engineering and technology leadership experience
- 5+ years in executive technology leadership roles (CTO, VP Engineering, Head of Engineering, or equivalent)
- Proven experience scaling engineering organizations and technology platforms
- Track record of leading successful technology transformations and growth initiatives
- Experience working directly with executive leadership, boards, and investors

Technical Expertise

Strong understanding of:

- Software architecture and distributed systems
- Cloud infrastructure and platform engineering
- AI and machine learning technologies
- Cybersecurity and risk management
- Enterprise software development
- Data engineering and analytics platforms
- Blockchain and emerging technologies

- DevOps, SRE, and modern engineering practices

Experience with:

- Cloud platforms (AWS, Azure, or GCP)
 - SaaS and enterprise-scale architectures
 - High-growth technology environments
 - Product development and innovation management
 - Technology budgeting and resource planning
-

Preferred Qualifications

- Experience within fintech, investment management, payments, blockchain, AI, or enterprise software industries
 - Experience leading globally distributed engineering organizations
 - Background in scaling startups through rapid growth phases
 - Experience managing technology due diligence for acquisitions or investments
 - MBA, Master's degree, or advanced technical degree is a plus
 - Strong network within the technology and startup ecosystem
-

Technology Environment

Cloud & Infrastructure

AWS • Azure • Google Cloud Platform • Kubernetes • Terraform

Engineering & Development

Java • Python • Go • Node.js • React • TypeScript

AI & Data

Machine Learning • Data Engineering • Analytics Platforms • Generative AI

Blockchain & Web3

Ethereum • Smart Contracts • Digital Assets • DeFi Infrastructure

Security & Operations

DevSecOps • SRE • Compliance • Cybersecurity

Leadership & Collaboration

GitHub • Jira • Slack • Notion • Executive Reporting Platforms

Why Join Us

- ✦ Flexible remote, hybrid, and onsite work options
 - ✦ Full-time, fractional, and executive advisory opportunities available
 - ✦ Competitive executive compensation package
 - ✦ Opportunity to define technology strategy at the highest level
 - ✦ Exposure to innovative fintech, blockchain, AI, and emerging technology ventures
 - ✦ Direct collaboration with executive leadership and investment professionals
 - ✦ Ability to influence the growth of multiple technology-driven businesses
 - ✦ Strong commitment to innovation, leadership development, and long-term impact
-

Apply

If you are a visionary technology leader passionate about building exceptional engineering organizations, driving innovation, and shaping the future of technology across high-growth businesses, we'd love to connect with you.
