

Senior Developer Relations Engineer (DevRel)

Developer Experience, Technical Advocacy & Community Growth

-  Remote / Hybrid / Onsite
 -  Full-Time or Part-Time
 -  The Copia Group, LLC
 -  Senior Level
-

About The Copia Group

The Copia Group is an investment management firm supporting innovative companies across fintech, blockchain, AI, digital infrastructure, and emerging technology sectors.

Through strategic investments and partnerships, we help accelerate the development of developer-focused platforms, financial technologies, Web3 ecosystems, and modern software products. Our portfolio companies rely on strong developer communities and exceptional developer experiences to drive adoption and innovation.

We are seeking an experienced **Senior Developer Relations Engineer (DevRel)** to bridge the gap between engineering teams and developer communities by advocating for developers, improving developer experiences, and driving ecosystem growth.

The Opportunity

As a Senior Developer Relations Engineer, you will serve as both a technical expert and community advocate. You'll engage directly with developers, create technical content, build demos and sample applications, and provide valuable feedback to product and engineering teams.

You'll help developers successfully adopt platforms and APIs while influencing product direction through community insights. This role combines software engineering, technical communication, community engagement, and developer advocacy.

If you're passionate about technology, education, and helping developers succeed, this role offers a unique opportunity to make a meaningful impact.

What You'll Do

Developer Advocacy

- Act as the voice of developers within the organization
- Build strong relationships with developer communities and ecosystem partners
- Gather developer feedback and communicate insights to product and engineering teams
- Advocate for improvements that enhance developer experience and platform usability
- Support developer adoption and engagement initiatives

Technical Content & Education

- Create high-quality technical documentation, tutorials, guides, and API examples
- Develop blog posts, videos, workshops, and educational content
- Build sample applications, SDK examples, and reference implementations
- Deliver technical presentations, webinars, and live demonstrations
- Simplify complex technical concepts for diverse audiences

Community Engagement

- Participate in developer conferences, meetups, hackathons, and industry events
- Engage with developers across online communities and social platforms
- Support open-source initiatives and community-driven projects
- Foster relationships with external developers, partners, and contributors
- Help grow and strengthen developer ecosystems

Product & Engineering Collaboration

- Work closely with Product Managers and Engineering teams to improve APIs, SDKs, and developer tools
 - Test new features and provide developer-centric feedback
 - Contribute code to developer tooling, documentation, and platform integrations
 - Identify friction points in developer workflows and recommend solutions
 - Assist with technical troubleshooting and developer support initiatives
-

What We're Looking For

Required Qualifications

Experience

- 4+ years of software engineering experience
- 2+ years of Developer Relations, Developer Advocacy, Solutions Engineering, or Technical Community experience
- Experience creating technical content for developers
- Experience presenting technical concepts to both technical and non-technical audiences

Technical Expertise

Strong experience with:

- JavaScript / TypeScript
- APIs and SDK integrations
- Cloud-based platforms
- Git and GitHub workflows
- Technical documentation
- Sample application development
- Developer tooling and automation

Strong understanding of:

- Modern software development practices
- Developer experience (DX) principles
- API design and integration workflows
- Open-source ecosystems
- Community engagement strategies
- Product development lifecycle

Preferred Qualifications

- Experience working in fintech, payments, blockchain, AI, SaaS, or developer-platform companies
 - Familiarity with payment APIs, cloud platforms, or Web3 ecosystems
 - Experience with React, Node.js, Python, or Go
 - Experience speaking at conferences, meetups, or technical events
 - Contributions to open-source projects or developer communities
 - Experience building educational content, video tutorials, or technical courses
-

Technology Environment

Programming Languages

JavaScript • TypeScript • Python • Go

Frontend & Backend

React • Next.js • Node.js • REST APIs • GraphQL

Developer Platforms

SDKs • APIs • CLI Tools • Developer Portals

Cloud & Infrastructure

AWS • Docker • Kubernetes • CI/CD

Documentation & Content

Markdown • OpenAPI • Postman • GitHub

Tools & Collaboration

GitHub • Jira • Slack • Notion • Figma

Why Join Us

- ✦ Flexible remote, hybrid, and onsite work options
 - ✦ Full-time and part-time opportunities
 - ✦ Competitive compensation package
 - ✦ Opportunity to influence developer communities and product adoption
 - ✦ Exposure to innovative fintech, AI, blockchain, and emerging technology initiatives
 - ✦ Collaborative, developer-first culture focused on innovation and learning
 - ✦ Career advancement into Lead DevRel, Developer Experience (DX), Product, or Engineering Leadership
 - ✦ Strong investment in public speaking, community engagement, open-source contribution, and professional growth
-
