About The Copia Group

The Copia Group is an investment management and technology-focused firm supporting innovative companies across fintech, digital infrastructure, and emerging technology sectors.

We collaborate on projects connected to Stripe's ecosystem, helping build scalable payment platforms, developer-focused products, financial infrastructure, and next-generation commerce experiences used by global businesses and modern digital platforms.

We are expanding our engineering team and looking for talented frontend engineers passionate about building modern, high-performance web applications at scale.

The Opportunity

We are seeking a Senior Frontend Engineer to help design and develop modern frontend applications across fintech platforms, payment systems, and developer tools.

You will work closely with product managers, designers, and backend engineers to create intuitive, scalable, and reliable user experiences powering next-generation financial technology products.

This role offers strong technical ownership, collaborative product development, and the opportunity to contribute to impactful infrastructure projects.

What You'll Do

Frontend Development

- Build scalable and high-performance web applications using React, Next.js, and TypeScript
- Develop responsive, accessible, and reusable UI components
- Create intuitive user experiences for fintech, payments, and commerce platforms
- Integrate frontend systems with APIs and backend services

Architecture & Performance

- Contribute to frontend architecture and technical decision-making
- Optimize application performance, scalability, and maintainability
- Improve frontend workflows, tooling, and developer experience
- Maintain clean, testable, and well-documented codebases

Collaboration & Leadership

- Collaborate cross-functionally with product, design, and engineering teams
 - Participate in code reviews and technical planning
 - Mentor engineers and contribute to frontend best practices
 - Take ownership of frontend features and initiatives end-to-end
-

What We're Looking For

Required Experience

- 5+ years of professional frontend engineering experience
- Strong expertise in React, Next.js, TypeScript, JavaScript, HTML, and CSS

- Experience building scalable web applications and reusable component systems
- Strong understanding of frontend architecture, state management, and API integrations
- Experience optimizing frontend performance and accessibility
- Familiarity with Git, CI/CD pipelines, and modern development workflows
- Strong communication and collaboration skills

Nice to Have

- Experience working in fintech, payments, SaaS, or infrastructure platforms
 - Familiarity with Stripe APIs or payment systems
 - Experience with Tailwind CSS, design systems, or component libraries
 - Startup or high-growth product experience
 - Understanding of frontend security and authentication workflows
-

Tech Stack

Frontend

React • Next.js • TypeScript • Tailwind CSS

Infrastructure & Tools

REST APIs • GraphQL • Git • CI/CD • AWS

Collaboration

Figma • Jira • Slack • Notion

Why Join Us

- ✦ Flexible remote, hybrid, and onsite work options
 - ✦ Full-time and part-time opportunities
 - ✦ Competitive compensation
 - ✦ High-impact technical ownership
 - ✦ Modern engineering culture and collaborative environment
 - ✦ Opportunity to work on innovative fintech and infrastructure projects
 - ✦ Long-term growth and leadership opportunities
-

Apply

If you enjoy building modern frontend experiences and scalable digital products used at global scale, we'd love to connect with you.
