About The Copia Group

The Copia Group is an investment management and technology-focused firm supporting innovative companies across fintech, digital infrastructure, and emerging technology sectors.

We collaborate on projects connected to Stripe's ecosystem, helping build scalable payment systems, financial infrastructure, developer-focused platforms, and next-generation commerce solutions used by businesses globally.

We are expanding our mobile engineering organization and seeking experienced mobile engineers passionate about building scalable, high-performance mobile applications and digital experiences.

The Opportunity

We are seeking a Senior Mobile Engineer to help design, develop, and scale mobile applications powering fintech and commerce platforms.

In this role, you will work closely with product managers, designers, backend engineers, and platform teams to deliver secure, intuitive, and high-performance mobile experiences across iOS and Android platforms.

This is a high-impact engineering role offering strong ownership, technical influence, and the opportunity to contribute directly to modern financial technology products used at scale.

What You'll Do

Mobile Application Development

- Design, build, and maintain scalable mobile applications for iOS and Android
- Develop responsive and high-performance mobile experiences using modern frameworks and native technologies
- Integrate mobile applications with APIs, backend services, and cloud infrastructure
- Write clean, maintainable, and production-ready code
- Collaborate with product and design teams to deliver polished user experiences

Architecture & Performance

- Contribute to mobile architecture and technical strategy
- Optimize application performance, scalability, reliability, and usability
- Improve mobile development workflows, testing, and release processes
- Support application monitoring, debugging, and operational stability
- Participate in technical planning, architecture reviews, and engineering discussions

Collaboration & Leadership

- Participate in code reviews and mentorship across engineering teams
 - Collaborate cross-functionally with backend, DevOps, product, and design teams
 - Take ownership of mobile features and technical initiatives end-to-end
 - Help establish mobile engineering standards and best practices
-

What We're Looking For

Required Experience

- 5+ years of professional mobile engineering experience
 - Strong experience building iOS and/or Android applications
 - Experience with:
 - React Native
 - Swift / SwiftUI
 - Kotlin / Android SDK
 - mobile architecture patterns
 - REST APIs and backend integrations
 - Strong understanding of:
 - mobile performance optimization
 - scalable application architecture
 - mobile security best practices
 - testing and deployment workflows
 - responsive and accessible UI development
 - Experience publishing and maintaining production mobile applications
 - Familiarity with Git, CI/CD pipelines, and cloud-based development workflows
 - Strong communication and problem-solving skills
-

Preferred Experience

- Experience working in fintech, payments, SaaS, or infrastructure platforms
 - Familiarity with Stripe APIs, mobile payments, or financial systems
 - Experience with Firebase, GraphQL, or real-time application features
 - Experience with AWS, Docker, or cloud-native backend systems
 - Startup or high-growth engineering environment experience
 - Experience building developer-focused or transaction-heavy mobile applications
-

Tech Environment

Mobile

React Native • Swift • SwiftUI • Kotlin • Android SDK

Backend & APIs

REST APIs • GraphQL • Node.js • Python

Infrastructure

AWS • Firebase • CI/CD • Cloud Services

Tools & Collaboration

GitHub • Jira • Slack • Notion

Why Join Us

- ✦ Flexible remote, hybrid, and onsite work options
 - ✦ Full-time and part-time opportunities
 - ✦ Competitive compensation
 - ✦ High-impact engineering ownership
 - ✦ Collaborative and engineering-driven culture
 - ✦ Opportunity to work on innovative fintech and infrastructure platforms
 - ✦ Long-term growth and leadership opportunities
-

Apply

If you are passionate about mobile engineering, scalable applications, and building modern digital experiences powering financial technology platforms, we'd love to connect with you.
