

Founding Engineer

Fintech Infrastructure & Commerce Platforms

-  Remote / Hybrid / Onsite
 -  Full-Time or Part-Time
 -  The Copia Group, LLC
 -  Founding Team
-

About The Copia Group

The Copia Group is an investment management and technology-focused firm supporting innovative companies across fintech, digital infrastructure, and emerging technology sectors.

We collaborate on projects connected to Stripe's ecosystem, helping build scalable payment systems, developer-focused platforms, financial infrastructure, and next-generation commerce solutions used by businesses globally.

We are building a new generation of fintech and infrastructure products and are seeking a Founding Engineer to help shape both the technical foundation and long-term product vision of the platform.

The Opportunity

This is a rare opportunity to join at the earliest stage of product and engineering development as a Founding Engineer.

You will work directly with leadership, product stakeholders, and early engineering team members to architect, build, and scale core systems from the ground up. Beyond technical execution, you will help define engineering culture, technology strategy, hiring standards, and long-term platform direction.

We are looking for someone who thrives in fast-moving environments, enjoys ownership, and is excited about building impactful products from zero to scale.

What You'll Do

Product & Platform Development

- Architect and build core platform infrastructure and product features from the ground up
- Develop scalable frontend, backend, and platform systems
- Build APIs, internal tools, and cloud-native services supporting fintech and commerce applications
- Collaborate closely with product and design teams to rapidly iterate on ideas and user experiences
- Ship high-quality features quickly while balancing scalability and maintainability

Technical Leadership

- Help define engineering standards, architecture, and development processes
- Drive technical strategy and technology selection decisions
- Improve scalability, reliability, security, and operational performance
- Establish best practices across code quality, testing, deployment, and infrastructure
- Mentor future engineering hires and help shape team culture

Startup & Cross-Functional Ownership

- Work directly with founders and leadership on business-critical initiatives
 - Participate in roadmap planning and product strategy discussions
 - Solve ambiguous technical and operational challenges
 - Contribute beyond engineering when needed in a fast-paced startup environment
-

What We're Looking For

Required Experience

- 5+ years of professional software engineering experience
 - Strong full stack engineering capabilities across frontend and backend systems
 - Experience building scalable applications using modern technologies
 - Strong proficiency with technologies such as:
 - React / Next.js
 - TypeScript / JavaScript
 - Node.js / Python / Go / .NET
 - Experience designing APIs, backend services, and cloud infrastructure
 - Strong understanding of:
 - system architecture
 - scalability and performance
 - product engineering
 - security best practices
 - developer workflows and CI/CD
 - Ability to work independently with high ownership and autonomy
 - Excellent communication and problem-solving skills
-

Preferred Experience

- Startup or early-stage company experience
 - Experience working on fintech, payments, SaaS, or infrastructure products
 - Familiarity with Stripe APIs and payment systems
 - Experience with AWS, Docker, Kubernetes, or distributed systems
 - Product-minded engineering approach with strong UX awareness
 - Experience helping scale teams, systems, or platforms from early stage to growth
-

Tech Environment

Frontend

React • Next.js • TypeScript

Backend

Node.js • Python • Go • .NET

Infrastructure

AWS • Docker • Kubernetes • CI/CD

Database & Platform

PostgreSQL • Redis • APIs • Event-Driven Systems

Collaboration

GitHub • Jira • Slack • Notion

Why Join Us

- ✦ Founding-level ownership and influence
 - ✦ Flexible remote, hybrid, and onsite work options
 - ✦ Full-time and part-time opportunities
 - ✦ Competitive compensation and long-term growth potential
 - ✦ Opportunity to shape product, architecture, and engineering culture
 - ✦ Work on innovative fintech and infrastructure platforms
 - ✦ High-impact role with direct exposure to leadership and strategy
-

Apply

If you are excited about building products from the ground up, solving complex technical challenges, and helping shape the future of modern financial technology, we'd love to connect with you.
