

Senior Backend Engineer

Fintech Infrastructure & Commerce Platforms

-  Remote / Hybrid / Onsite
 -  Full-Time or Part-Time
 -  The Copia Group, LLC
 -  Senior Level
-

About The Copia Group

The Copia Group is an investment management and technology-focused firm supporting innovative companies across fintech, digital infrastructure, and emerging technology sectors.

We collaborate on projects connected to Stripe's ecosystem, helping build scalable payment systems, financial infrastructure, developer-focused platforms, and modern commerce solutions used by businesses globally.

We are expanding our backend engineering organization and seeking experienced engineers passionate about building scalable APIs, distributed systems, cloud-native services, and high-performance infrastructure platforms.

The Opportunity

We are seeking a Senior Backend Engineer to help architect, develop, and scale backend systems powering fintech and commerce applications.

In this role, you will work closely with engineering, infrastructure, and product teams to build secure APIs, microservices, distributed systems, and cloud-native backend platforms supporting modern financial technology products.

This is a high-impact engineering role offering strong technical ownership, architectural influence, and the opportunity to contribute directly to scalable platform initiatives.

What You'll Do

Backend & Platform Development

- Design, develop, and maintain scalable backend systems and APIs
- Build secure microservices and distributed applications supporting fintech and commerce platforms
- Develop high-performance backend infrastructure and internal platform services
- Write clean, maintainable, and production-ready code
- Collaborate with frontend, DevOps, and product teams to deliver end-to-end solutions

Architecture & Scalability

- Contribute to backend architecture and technical strategy
- Improve application scalability, reliability, observability, and operational performance
- Build and optimize distributed systems and event-driven services
- Participate in architecture reviews, technical planning, and engineering discussions
- Support cloud-native and microservices-based infrastructure initiatives

Collaboration & Leadership

- Participate in code reviews and technical mentorship
 - Take ownership of technical projects from development through deployment
 - Collaborate cross-functionally with engineering, infrastructure, and product stakeholders
 - Help establish backend engineering standards and development best practices
-

What We're Looking For

Required Experience

- 5+ years of professional software engineering experience
 - Strong expertise in backend application development
 - Experience building scalable APIs, microservices, and distributed systems
 - Strong understanding of:
 - backend architecture
 - distributed systems and microservices
 - database design and optimization
 - scalability and performance engineering
 - secure software development practices
 - Experience with one or more backend technologies such as:
 - Node.js / TypeScript
 - Python
 - Go
 - Java
 - .NET
 - Experience with relational and NoSQL databases
 - Familiarity with cloud platforms, containerized environments, and CI/CD workflows
 - Strong communication and problem-solving skills
-

Preferred Experience

- Experience working in fintech, payments, SaaS, or infrastructure platforms
 - Familiarity with Stripe APIs or financial systems
 - Experience with AWS, Docker, Kubernetes, or Terraform
 - Experience with Kafka, RabbitMQ, Redis, or event-driven architectures
 - Experience building high-scale transactional or platform systems
 - Startup or high-growth engineering environment experience
-

Tech Environment

Backend

Node.js • Python • Go • Java • .NET • REST APIs • gRPC

Infrastructure

AWS • Docker • Kubernetes • Terraform • CI/CD

Database & Messaging

PostgreSQL • MySQL • MongoDB • Redis • Kafka • RabbitMQ

Tools & Collaboration

GitHub • Jira • Slack • Notion

Why Join Us

- ✦ Flexible remote, hybrid, and onsite work options
 - ✦ Full-time and part-time opportunities
 - ✦ Competitive compensation
 - ✦ High-impact engineering ownership
 - ✦ Collaborative and engineering-driven culture
 - ✦ Opportunity to work on innovative fintech and infrastructure platforms
 - ✦ Long-term growth and leadership opportunities
-

Apply

If you are passionate about backend engineering, scalable systems, and building modern infrastructure powering financial technology platforms, we'd love to connect with you.
