About The Copia Group

The Copia Group is an investment management and technology-focused firm supporting innovative companies across fintech, digital infrastructure, and emerging technology sectors.

We collaborate on projects connected to Stripe's ecosystem, helping build scalable payment systems, developer-focused platforms, financial infrastructure, and modern commerce solutions used by businesses globally.

We are expanding our technical leadership organization and seeking an experienced Software Architect to help design and scale secure, high-performance systems powering next-generation financial technology platforms.

The Opportunity

We are seeking a Software Architect to lead architecture strategy and system design across complex fintech and commerce platforms.

In this role, you will define scalable technical solutions, guide engineering teams through architectural decisions, and help establish long-term engineering standards across backend systems, APIs, cloud infrastructure, and distributed applications.

You will work closely with engineering leadership, product stakeholders, and cross-functional teams to ensure systems are scalable, secure, maintainable, and aligned with business goals.

This is a high-impact leadership role with broad technical ownership and strategic influence across the organization.

What You'll Do

Architecture & System Design

- Design scalable, secure, and high-performance software architectures
- Lead architecture decisions across backend systems, APIs, cloud infrastructure, and platform services
- Define technical standards, system design patterns, and engineering best practices
- Architect distributed systems and cloud-native applications supporting fintech and commerce platforms
- Evaluate and recommend technologies, frameworks, and infrastructure solutions

Technical Leadership

- Partner with engineering leadership on long-term technical strategy
- Guide engineering teams through complex technical challenges and architectural planning
- Improve scalability, reliability, security, and maintainability across systems
- Conduct architecture reviews and ensure alignment with engineering standards
- Mentor engineers and support technical growth across teams

Cross-Functional Collaboration

- Work closely with product managers, engineering teams, and stakeholders
 - Translate business requirements into scalable technical solutions
 - Support roadmap planning, platform evolution, and infrastructure modernization
 - Contribute to development processes, deployment strategies, and operational excellence
-

What We're Looking For

Required Experience

- 8+ years of professional software engineering experience
 - 3+ years of architecture or senior technical leadership experience
 - Strong expertise in software architecture, distributed systems, and scalable infrastructure
 - Experience designing enterprise-grade applications and backend platforms
 - Strong proficiency with technologies such as:
 - Node.js / TypeScript
 - Python / Go / Java / .NET
 - REST APIs / GraphQL
 - Cloud-native systems
 - Deep understanding of:
 - system architecture
 - scalability and performance optimization
 - cloud infrastructure
 - security best practices
 - microservices and event-driven systems
 - CI/CD and DevOps workflows
 - Experience with databases such as PostgreSQL, MySQL, MongoDB, or Redis
 - Strong communication, leadership, and problem-solving skills
-

Preferred Experience

- Experience working in fintech, payments, SaaS, or infrastructure platforms
 - Familiarity with Stripe APIs and financial systems
 - Experience with AWS, Kubernetes, Docker, and distributed cloud environments
 - Experience leading architecture initiatives across multiple engineering teams
 - Startup or high-growth technology company experience
 - Experience with observability, reliability engineering, or platform engineering
-

Tech Environment

Backend & Platform

Node.js • TypeScript • Python • Go • Java • .NET

Infrastructure

AWS • Docker • Kubernetes • Terraform • CI/CD

Database & Messaging

PostgreSQL • MongoDB • Redis • Kafka

Tools & Collaboration

GitHub • Jira • Slack • Notion

Why Join Us

- ✦ Flexible remote, hybrid, and onsite work options
 - ✦ Full-time and part-time opportunities
 - ✦ Competitive compensation
 - ✦ High-impact architectural leadership role
 - ✦ Collaborative and engineering-driven culture
 - ✦ Opportunity to shape modern fintech and infrastructure platforms
 - ✦ Long-term growth and leadership opportunities
-

Apply

If you are passionate about designing scalable software systems and leading architecture for modern technology platforms, we'd love to connect with you.
