

Staff Software Engineer

Fintech Infrastructure & Commerce Platforms

-  Remote / Hybrid / Onsite
 -  Full-Time or Part-Time
 -  The Copia Group, LLC
 -  Staff Level
-

About The Copia Group

The Copia Group is an investment management and technology-focused firm supporting innovative companies across fintech, digital infrastructure, and emerging technology sectors.

We collaborate on projects connected to Stripe's ecosystem, helping build scalable payment systems, financial infrastructure, developer-focused platforms, and modern commerce solutions used by businesses globally.

We are growing our engineering organization and seeking experienced technical leaders passionate about building scalable systems, driving engineering excellence, and shaping modern financial technology platforms.

The Opportunity

We are seeking a Staff Software Engineer to lead the design and development of scalable platform infrastructure, distributed systems, and core applications powering fintech and commerce products.

In this role, you will serve as a senior technical leader across engineering initiatives, driving architecture decisions, improving engineering standards, and mentoring teams while contributing directly to high-impact platform development.

This is a highly influential role with broad technical ownership, cross-functional collaboration, and long-term leadership opportunities.

What You'll Do

Technical Leadership

- Lead architecture and technical direction for large-scale software systems
- Drive engineering best practices across performance, scalability, reliability, and security
- Guide teams through complex technical decisions and system design challenges
- Establish scalable development standards, workflows, and engineering processes
- Mentor engineers across multiple teams and support technical growth

Software Engineering

- Design, develop, and maintain scalable backend systems, APIs, and platform services
- Build distributed systems supporting fintech infrastructure, payment workflows, and commerce platforms
- Contribute hands-on to critical projects and core platform development
- Improve platform reliability, observability, and operational efficiency
- Collaborate with frontend, infrastructure, product, and leadership teams

Cross-Functional Impact

- Partner with engineering leadership on long-term technical strategy
 - Support roadmap planning, technical prioritization, and platform evolution
 - Help scale engineering operations, architecture, and team collaboration
 - Evaluate emerging technologies and recommend scalable solutions
-

What We're Looking For

Required Experience

- 8+ years of professional software engineering experience
 - Strong expertise in backend systems, distributed architecture, and scalable infrastructure
 - Experience building high-scale APIs, microservices, and cloud-native applications
 - Strong proficiency with technologies such as Node.js, TypeScript, Python, Go, Java, or .NET
 - Deep understanding of:
 - distributed systems
 - cloud infrastructure
 - scalability and performance optimization
 - system reliability and observability
 - software architecture and design patterns
 - Experience with databases such as PostgreSQL, MySQL, MongoDB, or Redis
 - Strong experience with CI/CD pipelines, containerization, and cloud platforms
 - Excellent communication, mentorship, and leadership abilities
-

Preferred Experience

- Experience working in fintech, payments, SaaS, or infrastructure platforms
 - Familiarity with Stripe APIs and financial systems
 - Experience leading technical initiatives across multiple teams
 - Experience with AWS, Kubernetes, Docker, and event-driven architectures
 - Startup or high-growth engineering environment experience
 - Background in platform engineering or developer infrastructure
-

Tech Environment

Backend & Platform

Node.js • TypeScript • Python • Go • .NET

Infrastructure

AWS • Docker • Kubernetes • CI/CD • Terraform

Database & Messaging

PostgreSQL • Redis • MongoDB • Kafka

Tools & Collaboration

GitHub • Jira • Slack • Notion

Why Join Us

- ✦ Flexible remote, hybrid, and onsite work options
 - ✦ Full-time and part-time opportunities
 - ✦ Competitive compensation
 - ✦ High-impact technical leadership role
 - ✦ Collaborative and engineering-driven culture
 - ✦ Opportunity to shape modern fintech and infrastructure platforms
 - ✦ Long-term growth and leadership opportunities
-

Apply

If you are passionate about solving complex engineering challenges and leading the development of scalable technology platforms, we'd love to connect with you.
