

Principal iOS Engineer

iOS Architecture, Mobile Innovation & Engineering Excellence

-  Remote / Hybrid / Onsite
 -  Full-Time or Part-Time
 -  The Copia Group, LLC
 -  Principal Level
-

About The Copia Group

The Copia Group is an investment management firm supporting innovative companies across fintech, AI, blockchain, digital infrastructure, and emerging technology sectors.

Through strategic investments and partnerships, we help accelerate the growth of technology-driven businesses building world-class mobile experiences, digital financial platforms, and next-generation software products. Our portfolio companies deliver applications used by millions of users, emphasizing performance, security, and exceptional user experience.

We are seeking an experienced **Principal iOS Engineer** to provide technical leadership, define mobile architecture, and drive the development of scalable, secure, and high-performance iOS applications across our technology portfolio.

The Opportunity

As a Principal iOS Engineer, you will serve as one of the organization's highest-level technical contributors, driving architectural decisions and engineering standards across multiple mobile products. You'll work closely with Engineering Managers, Product Managers, Designers, Backend Engineers, and Executive Leadership to build best-in-class iOS applications while mentoring engineering teams and shaping the long-term mobile strategy.

This role is ideal for an experienced engineer who enjoys solving complex technical challenges, influencing engineering direction, and delivering exceptional mobile experiences at scale.

What You'll Do

Mobile Architecture & Technical Leadership

- Define and evolve the architecture of large-scale iOS applications
- Establish engineering standards, design patterns, and mobile development best practices
- Lead technical design reviews and architecture discussions across engineering teams
- Evaluate emerging Apple technologies and recommend adoption strategies
- Drive long-term technical roadmaps and platform modernization initiatives

iOS Development

- Design, develop, and optimize high-performance native iOS applications using Swift
- Build reusable frameworks, shared components, and internal developer tools
- Optimize application performance, startup time, memory usage, and battery efficiency
- Ensure applications meet Apple's security, accessibility, and App Store standards
- Troubleshoot complex production issues and implement scalable solutions

Cross-Platform Collaboration

- Partner with Backend Engineers to design scalable APIs and mobile services
- Collaborate with Product Managers and UX/UI Designers to deliver intuitive user experiences
- Work closely with QA and DevOps teams to improve testing, automation, and release processes
- Contribute to roadmap planning, technical estimation, and engineering strategy
- Promote engineering excellence across multiple product teams

Mentorship & Engineering Excellence

- Mentor Senior and Staff Engineers through technical coaching and architecture guidance
 - Lead code reviews and establish high standards for software quality
 - Promote test-driven development, CI/CD, and modern engineering practices
 - Foster a culture of innovation, collaboration, and continuous learning
 - Represent the mobile engineering organization in executive and cross-functional discussions
-

What We're Looking For

Required Qualifications

Experience

- 10+ years of professional software engineering experience
- 8+ years of native iOS application development
- Proven experience architecting and delivering large-scale iOS applications
- Experience leading technical initiatives across multiple engineering teams
- Strong experience working in Agile software development environments

Technical Expertise

Strong experience with:

- Swift
- SwiftUI
- UIKit
- Combine
- Swift Concurrency (Async/Await)
- Xcode
- REST APIs and GraphQL
- Core Data
- Git

Strong understanding of:

- iOS application architecture (MVVM, VIPER, Clean Architecture)
- Mobile performance optimization
- Offline-first application design
- Secure mobile application development
- Accessibility (WCAG & Apple Accessibility Guidelines)

- CI/CD pipelines and automated testing
 - App Store deployment and release management
-

Preferred Qualifications

- Experience building fintech, digital banking, healthcare, SaaS, or enterprise mobile applications
 - Experience integrating biometric authentication, Apple Pay, Push Notifications, and background processing
 - Familiarity with Firebase, AWS Amplify, or cloud-native mobile services
 - Experience with Fastlane, Bitrise, GitHub Actions, or Azure DevOps
 - Experience mentoring engineering teams and influencing engineering strategy at scale
 - Contributions to open-source iOS libraries, technical communities, or conference speaking engagements
-

Technology Environment

Mobile Development

Swift • SwiftUI • UIKit • Combine • Core Data • Async/Await

Testing & Quality

XCTest • XCUITest • Fastlane • Snapshot Testing

Backend Integration

REST APIs • GraphQL • WebSockets

Cloud & DevOps

AWS • Firebase • Docker • GitHub Actions • Bitrise • CI/CD

Architecture & Design

MVVM • Clean Architecture • VIPER • Modular Architecture

Tools & Collaboration

GitHub • Jira • Slack • Notion • Figma

Why Join Us

- ✦ Flexible remote, hybrid, and onsite work options
 - ✦ Full-time and part-time opportunities
 - ✦ Competitive compensation package
 - ✦ Opportunity to define the technical direction of flagship iOS products
 - ✦ Exposure to fintech, AI, blockchain, and emerging technology initiatives
 - ✦ Collaborative, engineering-first culture focused on innovation, ownership, and technical excellence
 - ✦ Career advancement into Mobile Architect, Distinguished Engineer, Director of Mobile Engineering, or CTO
 - ✦ Strong investment in leadership development, conference participation, continuous learning, and open-source contributions
-

Apply

If you are passionate about building world-class iOS applications, defining modern mobile architectures, and leading engineering excellence across innovative products, we'd love to connect with you.
