

Senior Android Engineer

Mobile Commerce & Financial Technology Platforms

-  Remote / Hybrid / Onsite
 -  Full-Time or Part-Time
 -  The Copia Group, LLC
 -  Senior Level
-

About The Copia Group

The Copia Group is an investment management firm supporting innovative companies across fintech, digital infrastructure, commerce, and emerging technology sectors.

Through our portfolio and strategic partnerships, we help support the development of scalable financial services, payment technologies, developer platforms, and next-generation digital products used by businesses around the world.

We are seeking an experienced Senior Android Engineer to help build and scale high-quality mobile experiences for modern financial and commerce platforms.

The Opportunity

As a Senior Android Engineer, you will play a key role in designing, developing, and maintaining Android applications that deliver secure, reliable, and intuitive user experiences.

You will collaborate closely with product managers, designers, backend engineers, and platform teams to build mobile solutions that serve users at scale while maintaining exceptional performance and quality standards.

This is a high-impact role offering significant technical ownership, architectural influence, and opportunities to shape the future of mobile products.

What You'll Do

Android Development

- Design, develop, and maintain high-performance Android applications
- Build scalable, secure, and user-friendly mobile experiences
- Implement new features and continuously improve existing functionality
- Write clean, maintainable, and testable Kotlin code
- Ensure application performance, responsiveness, and reliability

Architecture & Technical Leadership

- Contribute to Android architecture, technical strategy, and engineering standards
- Drive adoption of modern Android development practices and frameworks
- Optimize application performance, scalability, and maintainability
- Participate in code reviews, design reviews, and architectural discussions
- Identify and resolve complex technical challenges

Collaboration & Product Delivery

- Partner closely with Product, Design, Backend, and QA teams
 - Translate business requirements into scalable technical solutions
 - Participate in sprint planning, estimation, and project execution
 - Support application releases, monitoring, and production issue resolution
 - Contribute to continuous improvement across engineering processes
-

What We're Looking For

Required Qualifications

- 5+ years of professional Android development experience
- Strong expertise in Kotlin and Android SDK
- Experience building and maintaining production Android applications
- Strong understanding of:
 - Android architecture patterns (MVVM, MVI, Clean Architecture)
 - Jetpack libraries
 - asynchronous programming and concurrency
 - mobile application security
 - performance optimization and debugging
- Experience integrating RESTful APIs and backend services
- Familiarity with unit testing, UI testing, and automated testing frameworks
- Strong problem-solving and communication skills

Preferred Qualifications

- Experience with Jetpack Compose
 - Experience working in fintech, payments, e-commerce, or SaaS environments
 - Familiarity with payment processing or financial technology products
 - Experience with GraphQL, Firebase, or real-time applications
 - Experience with CI/CD pipelines and automated mobile deployments
 - Experience mentoring engineers and leading technical initiatives
-

Technology Environment

Mobile Development

Kotlin • Android SDK • Jetpack Compose • Coroutines • Flow

Architecture & Libraries

MVVM • MVI • Clean Architecture • Retrofit • Room

Testing & Quality

JUnit • Espresso • MockK • UI Testing

Infrastructure & Tools

Firebase • GitHub • Jira • CI/CD Pipelines

Why Join Us

- ✦ Flexible remote, hybrid, and onsite work options
 - ✦ Full-time and part-time opportunities
 - ✦ Competitive compensation package
 - ✦ Opportunity to build products used at global scale
 - ✦ Strong engineering culture focused on quality and innovation
 - ✦ Exposure to fintech, commerce, and emerging technology initiatives
 - ✦ Career growth and leadership opportunities
 - ✦ Collaborative and fast-moving environment
-
