

Senior Flutter Developer

Mobile Commerce & Financial Technology Platforms

-  Remote / Hybrid / Onsite
 -  Full-Time or Part-Time
 -  The Copia Group, LLC
 -  Senior Level
-

About The Copia Group

The Copia Group is an investment management firm supporting innovative companies across fintech, digital infrastructure, commerce, and emerging technology sectors.

Through our portfolio and strategic partnerships, we help support the development of scalable financial services, payment technologies, developer platforms, and next-generation digital products used by businesses worldwide.

We are seeking an experienced Senior Flutter Developer to help build high-performance cross-platform mobile applications that deliver seamless user experiences across iOS, Android, and emerging platforms.

The Opportunity

As a Senior Flutter Developer, you will play a key role in designing, developing, and scaling modern mobile applications that power fintech, commerce, and digital platform experiences.

You will collaborate closely with product managers, designers, backend engineers, and infrastructure teams to build secure, reliable, and intuitive mobile products while helping define mobile architecture and engineering best practices.

This is a high-impact engineering role offering significant ownership, technical influence, and opportunities to shape the future of our mobile technology initiatives.

What You'll Do

Mobile Application Development

- Design, develop, and maintain scalable cross-platform applications using Flutter and Dart
- Build high-quality mobile experiences for iOS and Android platforms
- Develop reusable UI components, libraries, and mobile frameworks
- Integrate mobile applications with backend APIs, cloud services, and third-party platforms
- Deliver clean, maintainable, and production-ready code

Architecture & Performance

- Define and implement scalable mobile architecture patterns
- Optimize application performance, responsiveness, and reliability
- Improve mobile application security and stability
- Participate in architecture discussions and technical planning
- Troubleshoot and resolve complex mobile engineering challenges

Collaboration & Leadership

- Work closely with Product, Design, Backend, and QA teams
 - Participate in code reviews and mentor junior engineers
 - Help establish engineering standards, testing practices, and development workflows
 - Contribute to sprint planning, estimation, and technical decision-making
 - Support application deployment, monitoring, and release management
-

What We're Looking For

Required Qualifications

- 5+ years of professional mobile development experience
 - 3+ years of experience building production applications with Flutter
 - Strong expertise in Dart and Flutter framework
 - Experience publishing and maintaining applications on the Apple App Store and Google Play Store
 - Strong understanding of:
 - Flutter architecture and state management
 - mobile application lifecycle
 - RESTful APIs and backend integrations
 - performance optimization
 - mobile security best practices
 - responsive and adaptive UI design
 - Experience with Git and modern software development workflows
 - Strong communication, collaboration, and problem-solving skills
-

Preferred Qualifications

- Experience working in fintech, payments, e-commerce, or SaaS products
 - Familiarity with payment processing and financial technology platforms
 - Experience with Bloc, Riverpod, Provider, or similar state management solutions
 - Experience with Firebase services and cloud integrations
 - Experience integrating analytics, push notifications, and third-party SDKs
 - Experience working in startup or high-growth technology environments
-

Technology Environment

Mobile Development

Flutter • Dart • Android • iOS

State Management

Bloc • Riverpod • Provider

Backend & APIs

REST APIs • GraphQL • Firebase

Cloud & DevOps

AWS • Firebase • CI/CD Pipelines

Tools & Collaboration

GitHub • Jira • Slack • Notion

Why Join Us

- ✦ Flexible remote, hybrid, and onsite work options
 - ✦ Full-time and part-time opportunities
 - ✦ Competitive compensation package
 - ✦ Opportunity to build products used by global customers
 - ✦ Strong engineering culture focused on quality and innovation
 - ✦ Exposure to fintech, commerce, and emerging technology initiatives
 - ✦ Career growth and technical leadership opportunities
 - ✦ Collaborative and fast-moving environment
-

Apply

If you are passionate about Flutter development, mobile architecture, and building exceptional cross-platform experiences, we'd love to connect with you.
