About The Copia Group

The Copia Group is an investment management and technology-focused firm supporting innovative companies across fintech, digital infrastructure, and emerging technology sectors.

We collaborate on projects connected to Stripe's ecosystem, helping build scalable payment systems, developer-focused platforms, financial infrastructure, and next-generation commerce solutions used by businesses globally.

We are expanding our product organization and seeking experienced product leaders passionate about building modern financial technology products and scalable digital platforms.

The Opportunity

We are seeking a Senior Product Manager to lead product strategy, roadmap execution, and cross-functional delivery across fintech and commerce platform initiatives.

In this role, you will work closely with engineering, design, operations, and leadership teams to define product vision, prioritize features, and deliver user-centric solutions that support modern payment and infrastructure platforms.

This role offers strong ownership, strategic influence, and the opportunity to shape high-impact products used at scale.

What You'll Do

Product Strategy & Execution

- Define product vision, strategy, and roadmap for fintech and platform initiatives
- Gather and prioritize business, customer, and technical requirements
- Lead end-to-end product lifecycle from concept through launch and iteration
- Translate complex business needs into clear product specifications and user stories
- Drive product decisions using data, research, and customer feedback

Cross-Functional Collaboration

- Partner closely with engineering, design, and business stakeholders
- Coordinate product development across multiple teams and initiatives
- Facilitate sprint planning, roadmap discussions, and product reviews
- Ensure alignment between business goals, technical feasibility, and user experience

Product Optimization & Growth

- Analyze product performance, usage metrics, and customer insights
 - Identify opportunities to improve user experience, scalability, and operational efficiency
 - Support go-to-market planning and product launch coordination
 - Contribute to long-term platform and product strategy
-

What We're Looking For

Required Experience

- 5+ years of product management experience in software or technology environments

- Experience leading product development for SaaS, fintech, commerce, or infrastructure platforms
- Strong understanding of software development processes and agile methodologies
- Ability to work closely with engineering and technical teams
- Experience managing product roadmaps, requirements, and cross-functional execution
- Strong analytical, communication, and stakeholder management skills
- Ability to balance strategic thinking with execution and delivery

Nice to Have

- Experience working with payments, fintech infrastructure, or developer platforms
 - Familiarity with Stripe products or payment ecosystems
 - Experience with analytics tools, A/B testing, and product metrics
 - Startup or high-growth product experience
 - Technical background or experience working closely with APIs and platform systems
-

Tools & Collaboration

Product & Analytics

Jira • Notion • Figma • Google Analytics • Mixpanel

Collaboration

Slack • Confluence • Linear • Miro

Technical Exposure

APIs • SaaS Platforms • Payment Infrastructure • Cloud Systems

Why Join Us
