

Senior UI/UX Designer

User Experience, Interface Design & Digital Product Innovation

-  Remote / Hybrid / Onsite
 -  Full-Time or Part-Time
 -  The Copia Group, LLC
 -  Senior Level
-

About The Copia Group

The Copia Group is an investment management firm supporting innovative companies across fintech, digital infrastructure, commerce, AI, and emerging technology sectors.

Through strategic investments and partnerships, we help accelerate the development of modern financial services, digital platforms, and customer-centric technology solutions. Our portfolio companies build products that prioritize usability, accessibility, and exceptional user experiences across web and mobile platforms.

We are seeking an experienced **Senior UI/UX Designer** to create intuitive, visually engaging, and user-focused digital experiences that transform complex ideas into elegant product solutions.

The Opportunity

As a Senior UI/UX Designer, you will play a key role in shaping the user experience of modern web and mobile applications. You'll collaborate closely with Product Managers, Software Engineers, Researchers, and stakeholders to design intuitive interfaces that balance business objectives with user needs.

This role offers the opportunity to influence product strategy, establish design standards, and contribute throughout the entire product development lifecycle—from discovery and research to prototyping, testing, and implementation.

What You'll Do

User Experience Design

- Design intuitive, user-centered experiences across web and mobile platforms
- Conduct user research, competitive analysis, and usability testing
- Develop user flows, journey maps, wireframes, and interactive prototypes
- Translate business requirements into seamless user experiences
- Continuously improve products through user feedback and data-driven design decisions

User Interface Design

- Create high-fidelity UI designs that align with product goals and brand identity
- Design responsive interfaces for desktop, tablet, and mobile applications
- Build reusable design components and maintain consistency across products
- Collaborate with engineers to ensure pixel-perfect implementation
- Ensure designs meet accessibility (WCAG) and usability standards

Collaboration & Product Development

- Partner with Product Managers to define product vision and user requirements
- Work closely with engineering teams throughout development and release cycles
- Present design concepts and communicate design rationale to stakeholders
- Participate in design critiques, sprint planning, and product workshops
- Contribute to continuous improvements in product design processes

Design Systems & Innovation

- Help build and maintain scalable design systems and UI component libraries

- Promote consistent design patterns across multiple products
 - Explore emerging design trends, AI-assisted workflows, and interaction models
 - Advocate for human-centered design principles across the organization
 - Mentor junior designers and contribute to a collaborative design culture
-

What We're Looking For

Required Qualifications

Experience

- 5+ years of professional experience in UI/UX Design or Product Design
- Strong portfolio showcasing web and mobile application design projects
- Experience working across the complete product design lifecycle
- Experience collaborating with cross-functional product and engineering teams

Design Expertise

Strong experience with:

- User Experience (UX) Design
- User Interface (UI) Design
- Wireframing and Prototyping
- Design Systems
- Responsive Design
- Information Architecture
- Interaction Design
- Visual Design

Strong understanding of:

- Human-centered design principles
 - User research and usability testing
 - Accessibility standards (WCAG)
 - Design thinking methodologies
 - Mobile-first and responsive design
 - Product discovery and iterative design processes
-

Preferred Qualifications

- Experience designing fintech, SaaS, blockchain, AI, or enterprise software products
 - Experience creating dashboards, analytics platforms, or data-intensive interfaces
 - Familiarity with design systems such as Material Design and Apple Human Interface Guidelines
 - Experience conducting user interviews, A/B testing, and usability studies
 - Basic understanding of HTML, CSS, and frontend development workflows
 - Experience collaborating with globally distributed product teams
-

Technology Environment

Design Tools

Figma • FigJam • Adobe Creative Suite • Sketch • ProtoPie

Research & Collaboration

Maze • UserTesting • Miro • Notion

Product & Development

Jira • Confluence • GitHub • Slack

Design Systems

Material Design • Apple Human Interface Guidelines • Storybook

Why Join Us

- ✨ Flexible remote, hybrid, and onsite work options
- ✨ Full-time and part-time opportunities
- ✨ Competitive compensation package
- ✨ Opportunity to design products used by global businesses and customers

- ✦ Exposure to innovative fintech, AI, and emerging technology initiatives
 - ✦ Collaborative, design-driven and engineering-focused culture
 - ✦ Career advancement into Lead Designer, Product Design Manager, or Design Leadership
 - ✦ Strong investment in creativity, innovation, continuous learning, and professional development
-

Apply

If you are passionate about creating intuitive digital experiences, solving complex user problems through thoughtful design, and building products that people genuinely enjoy using, we'd love to connect with you.
