About The Copia Group

The Copia Group is an investment management firm supporting innovative companies across fintech, digital infrastructure, commerce, and emerging technology sectors.

Through strategic investments and partnerships, we help advance the development of modern financial services, developer platforms, AI-driven solutions, and digital products that power businesses around the world.

We are seeking an experienced **Lead Product Designer** to define product experiences, establish design strategy, and lead the creation of intuitive, user-centered digital products across our technology portfolio.

The Opportunity

As a Lead Product Designer, you will play a strategic role in shaping the user experience of innovative web and mobile products. You'll partner closely with Product Managers, Engineers,

Researchers, and business stakeholders to transform complex challenges into elegant, scalable design solutions.

Beyond designing exceptional interfaces, you'll help define design processes, mentor designers, evolve our design system, and influence product direction from discovery through delivery.

This is a leadership opportunity for a designer who enjoys balancing creativity, business thinking, and technical collaboration.

What You'll Do

Product Design Leadership

- Lead end-to-end product design from discovery through final implementation
- Define design vision and user experience strategy across multiple products
- Drive design consistency through scalable design systems and reusable components
- Establish UX standards, design principles, and best practices
- Mentor product designers and promote a culture of design excellence

User Experience & Research

- Conduct user research, interviews, usability testing, and competitive analysis
- Translate customer insights into intuitive user experiences
- Create user flows, journey maps, wireframes, prototypes, and high-fidelity designs
- Validate design solutions through testing and iterative improvements
- Advocate for accessibility, usability, and inclusive design principles

Cross-Functional Collaboration

- Partner with Product Managers to define product vision and roadmap
- Collaborate closely with Engineering teams to ensure high-quality implementation
- Work with stakeholders to balance user needs, technical feasibility, and business goals
- Present design concepts and rationale to leadership and cross-functional teams
- Facilitate design workshops, brainstorming sessions, and product discovery activities

Design Systems & Innovation

- Build and maintain scalable design systems and component libraries
- Improve design workflows and collaboration across teams
- Explore emerging design tools, AI-assisted workflows, and interaction patterns
- Champion continuous improvement in product design processes

- Ensure visual consistency across web, mobile, and responsive experiences
-

What We're Looking For

Required Qualifications

Experience

- 7+ years of professional Product Design or UX/UI Design experience
- 2+ years of experience leading design projects or mentoring designers
- Strong portfolio demonstrating end-to-end product design work
- Experience designing complex web and mobile applications
- Experience working within Agile product development environments

Design Expertise

Strong experience with:

- Product Design
- User Experience (UX)
- User Interface (UI)
- Interaction Design
- Design Systems
- Information Architecture
- Prototyping
- Visual Design

Strong understanding of:

- Human-centered design methodologies
 - User research and usability testing
 - Accessibility standards (WCAG)
 - Responsive and mobile-first design
 - Product discovery and iterative design processes
 - Design thinking and systems thinking
-

Preferred Qualifications

- Experience working in fintech, SaaS, e-commerce, or enterprise software products
 - Experience designing financial platforms, dashboards, or developer tools
 - Familiarity with AI-powered user experiences and emerging design technologies
 - Experience building and scaling enterprise design systems
 - Experience working with distributed product and engineering teams
 - Passion for mentoring designers and building collaborative design cultures
-

Technology Environment

Design & Prototyping

Figma • FigJam • Adobe Creative Suite • Principle • ProtoPie

Research & Collaboration

Maze • UserTesting • Miro • Notion

Product & Delivery

Jira • Confluence • GitHub • Slack

Design Systems

Figma Libraries • Material Design • Human Interface Guidelines

Why Join Us

- ✦ Flexible remote, hybrid, and onsite work options
- ✦ Full-time and part-time opportunities
- ✦ Competitive compensation package
- ✦ Opportunity to influence product strategy and user experience across innovative platforms
- ✦ Exposure to fintech, AI, and emerging technology initiatives

- ✨ Collaborative, design-driven and engineering-focused culture
 - ✨ Career advancement into Principal Designer, Head of Design, or Product Leadership
 - ✨ Strong investment in creativity, innovation, and continuous professional growth
-
