

Senior Mobile Architect

Mobile Strategy, Architecture & Digital Experience Platforms

-  Remote / Hybrid / Onsite
 -  Full-Time or Part-Time
 -  The Copia Group, LLC
 -  Senior Leadership Level
-

About The Copia Group

The Copia Group is an investment management firm supporting innovative companies across fintech, digital infrastructure, commerce, and emerging technology sectors.

Through strategic investments and partnerships, we help advance the development of modern financial services, payment technologies, developer platforms, and next-generation digital experiences used by businesses worldwide.

We are seeking an experienced **Senior Mobile Architect** to define and lead the architectural vision for mobile platforms, enabling teams to deliver secure, scalable, and exceptional user experiences across iOS and Android ecosystems.

The Opportunity

As a Senior Mobile Architect, you will be responsible for designing enterprise-grade mobile architectures, establishing engineering standards, and guiding the technical direction of mobile initiatives across multiple products and teams.

You will collaborate with engineering leaders, product managers, designers, and platform teams to ensure mobile applications are built with scalability, maintainability, security, and performance at their core.

This role combines hands-on technical expertise with strategic leadership and cross-functional influence.

What You'll Do

Mobile Architecture & Strategy

- Define and evolve the long-term architecture strategy for mobile platforms
- Design scalable, maintainable, and secure mobile application architectures
- Establish standards, guidelines, and best practices for mobile development teams
- Evaluate emerging technologies, frameworks, and architectural approaches
- Drive consistency and reusability across mobile applications and shared components

Technical Leadership

- Provide architectural guidance to Android, iOS, and cross-platform engineering teams
- Lead technical design reviews and architectural decision-making processes
- Mentor senior engineers and serve as a subject matter expert in mobile technologies
- Identify and resolve complex technical challenges affecting mobile systems
- Influence technical roadmaps and strategic engineering initiatives

Platform Engineering & Quality

- Optimize application performance, reliability, and scalability
- Champion mobile security best practices and compliance standards
- Improve observability, monitoring, and release management processes
- Establish robust testing strategies and quality frameworks
- Support CI/CD initiatives for mobile development and deployment workflows

Cross-Functional Collaboration

- Partner with Product, UX/UI, Backend, Infrastructure, and Executive stakeholders
 - Translate business objectives into scalable technical solutions
 - Align mobile architecture with organizational goals and platform strategies
 - Facilitate communication between engineering teams to ensure technical alignment
-

What We're Looking For

Required Qualifications

Experience

- 8+ years of professional mobile engineering experience
- 3+ years of experience in mobile architecture or technical leadership roles
- Proven track record designing and delivering large-scale mobile applications
- Experience leading technical initiatives across multiple teams or products

Technical Expertise

Strong expertise in:

- Native Android development (Kotlin)
- Native iOS development (Swift)
- Mobile architecture patterns (MVVM, MVI, Clean Architecture)
- Cross-platform frameworks such as Flutter or React Native
- Mobile application security and authentication
- Performance optimization and memory management
- API integrations and offline-first architectures
- CI/CD practices for mobile applications

Strong understanding of:

- Scalable mobile platform design
 - Mobile design systems and reusable components
 - Observability and monitoring strategies
 - Automated testing and quality engineering practices
 - Cloud-connected mobile ecosystems
-

Preferred Qualifications

- Experience working in fintech, payments, e-commerce, or highly regulated industries
 - Familiarity with Stripe integrations and mobile payment experiences
 - Experience establishing mobile Centers of Excellence or platform teams
 - Experience with Firebase, GraphQL, and real-time mobile applications
 - Knowledge of accessibility standards and inclusive mobile design practices
 - Experience supporting globally distributed mobile engineering teams
-

Technology Environment

Mobile Platforms

Android • Kotlin • iOS • Swift • SwiftUI

Cross-Platform Technologies

Flutter • React Native

Architecture & Quality

MVVM • MVI • Clean Architecture • Automated Testing

Cloud & Mobile Services

Firebase • GraphQL • REST APIs • CI/CD Pipelines

Tools & Collaboration

GitHub • Jira • Slack • Notion • Figma

Why Join Us

- ✨ Flexible remote, hybrid, and onsite work options
- ✨ Full-time and part-time opportunities
- ✨ Competitive compensation package

- ✨ Opportunity to define mobile architecture at scale
 - ✨ Exposure to innovative fintech and emerging technology initiatives
 - ✨ Collaborative, engineering-first culture
 - ✨ Leadership opportunities with broad organizational impact
 - ✨ Strong investment in technical excellence and continuous learning
-

Apply

If you are passionate about mobile architecture, building scalable digital experiences, and leading the future of mobile engineering, we'd love to connect with you.
