

Technical Support Engineer

Fintech Infrastructure & Commerce Platforms

-  Remote / Hybrid / Onsite
 -  Full-Time or Part-Time
 -  The Copia Group, LLC
 -  Mid-Senior Level
-

About The Copia Group

The Copia Group is an investment management and technology-focused firm supporting innovative companies across fintech, digital infrastructure, and emerging technology sectors.

We collaborate on projects connected to Stripe's ecosystem, helping build scalable payment systems, financial infrastructure, developer-focused platforms, and modern commerce solutions used by businesses globally.

We are growing our support and operations organization and seeking a Technical Support Engineer passionate about solving technical issues, improving customer experience, and supporting modern technology platforms at scale.

The Opportunity

We are seeking a Technical Support Engineer to help support and maintain fintech and commerce platforms used by businesses and developers worldwide.

In this role, you will work closely with engineering, product, and operations teams to troubleshoot technical issues, resolve platform incidents, and support customers and internal stakeholders across APIs, payment systems, and infrastructure services.

This is a highly collaborative role offering strong technical exposure, problem-solving opportunities, and long-term growth within a modern engineering environment.

What You'll Do

Technical Support & Troubleshooting

- Investigate, troubleshoot, and resolve technical issues across web platforms, APIs, and backend systems
- Support customers, partners, and internal teams with technical product inquiries
- Diagnose platform incidents, system errors, and integration issues
- Escalate complex technical problems to engineering teams when necessary
- Monitor platform performance and help identify recurring operational issues

Customer & Platform Support

- Assist developers with API integrations, authentication flows, and payment-related workflows
- Provide clear technical guidance and issue resolution documentation
- Improve customer support workflows and incident management processes
- Maintain accurate records of support cases, resolutions, and operational procedures

Collaboration & Continuous Improvement

- Work closely with engineering and product teams to improve platform reliability and user experience
 - Contribute to internal knowledge bases and support documentation
 - Participate in testing, release support, and operational readiness initiatives
 - Help improve monitoring, troubleshooting tools, and support systems
-

What We're Looking For

Required Experience

- 3+ years of experience in technical support, support engineering, or systems support roles
 - Strong troubleshooting and analytical problem-solving skills
 - Experience supporting APIs, SaaS platforms, or web applications
 - Basic understanding of:
 - REST APIs
 - databases and SQL
 - authentication systems
 - cloud infrastructure
 - web technologies and networking concepts
 - Familiarity with tools such as Postman, Jira, GitHub, or logging/monitoring platforms
 - Strong communication and customer-facing skills
 - Ability to manage multiple issues and priorities in fast-paced environments
-

Preferred Experience

- Experience working in fintech, payments, SaaS, or infrastructure platforms
 - Familiarity with Stripe APIs and payment systems
 - Experience with cloud platforms such as AWS, Azure, or GCP
 - Knowledge of monitoring and observability tools
 - Experience supporting developer-focused products or technical integrations
 - Startup or high-growth company experience
-

Tech Environment

Platforms & APIs

REST APIs • Payment Systems • SaaS Platforms

Infrastructure

AWS • Cloud Services • Monitoring Tools • CI/CD

Support & Collaboration

Jira • Slack • GitHub • Notion • Postman

Databases & Tools

SQL • PostgreSQL • Logging & Analytics Tools

Why Join Us

- ✦ Flexible remote, hybrid, and onsite work options
 - ✦ Full-time and part-time opportunities
 - ✦ Competitive compensation
 - ✦ Collaborative and supportive engineering culture
 - ✦ Opportunity to work on modern fintech and infrastructure platforms
 - ✦ Exposure to high-scale systems and developer-focused products
 - ✦ Long-term growth and career development opportunities
-
