

Engineering Manager

Fintech Infrastructure & Commerce Platforms

-  Remote / Hybrid / Onsite
 -  Full-Time or Part-Time
 -  The Copia Group, LLC
 -  Leadership Level
-

About The Copia Group

The Copia Group is an investment management and technology-focused firm supporting innovative companies across fintech, digital infrastructure, and emerging technology sectors.

We collaborate on projects connected to Stripe's ecosystem, helping build scalable payment systems, financial infrastructure, developer-focused platforms, and modern commerce solutions used by businesses globally.

We are expanding our engineering leadership team and seeking an experienced Engineering Manager to help lead high-performing teams building modern financial technology platforms and scalable digital infrastructure.

The Opportunity

We are seeking an Engineering Manager to lead cross-functional engineering teams responsible for developing scalable fintech and commerce applications.

In this role, you will oversee engineering execution, team growth, technical delivery, and cross-functional collaboration while helping shape engineering culture, processes, and long-term technical strategy.

This is a high-impact leadership role offering strong ownership, organizational influence, and the opportunity to contribute directly to modern infrastructure and platform initiatives.

What You'll Do

Engineering Leadership

- Lead and manage a team of software engineers across frontend, backend, and platform development
- Drive technical execution, project delivery, and engineering team performance
- Foster a collaborative, high-performing, and growth-oriented engineering culture
- Mentor engineers and support career development and technical growth
- Help scale engineering processes, hiring, onboarding, and team operations

Technical & Product Collaboration

- Partner closely with product managers, designers, and stakeholders to define priorities and roadmaps
- Support architectural discussions and technical decision-making
- Ensure engineering quality, scalability, reliability, and operational excellence
- Help teams balance speed, quality, and long-term maintainability
- Contribute to technical planning, sprint execution, and delivery management

Operational Excellence

- Improve development workflows, release processes, and team productivity
 - Monitor project progress, risks, and resource planning
 - Support agile development practices and continuous improvement initiatives
 - Promote engineering best practices, testing standards, and documentation
-

What We're Looking For

Required Experience

- 7+ years of software engineering experience
- 2+ years of engineering management or technical leadership experience
- Experience managing cross-functional engineering teams and complex technical projects
- Strong understanding of software architecture, cloud infrastructure, and scalable systems
- Experience working closely with product, design, and business stakeholders
- Strong communication, leadership, and organizational skills
- Ability to balance technical depth with people leadership and delivery execution

Nice to Have

- Experience working in fintech, payments, SaaS, or infrastructure platforms
 - Familiarity with Stripe APIs or financial systems
 - Experience scaling engineering teams in startup or high-growth environments
 - Background in distributed systems, platform engineering, or developer infrastructure
 - Experience with agile methodologies and modern engineering operations
-

Tech Environment

Engineering Stack

React • TypeScript • Node.js • Python • .NET

Infrastructure

AWS • Docker • Kubernetes • CI/CD Pipelines

Collaboration & Management

Jira • Notion • Slack • GitHub

Why Join Us

- ✨ Flexible remote, hybrid, and onsite work options
- ✨ Full-time and part-time opportunities

- ✦ Competitive compensation
 - ✦ Opportunity to lead high-impact engineering initiatives
 - ✦ Collaborative and modern engineering culture
 - ✦ Exposure to innovative fintech and infrastructure platforms
 - ✦ Long-term leadership and growth opportunities
-

Apply

If you are passionate about building strong engineering teams and delivering scalable technology solutions that power modern financial platforms, we'd love to connect with you.
