

# Senior Product Designer

## Fintech Infrastructure & Commerce Platforms

-  Remote / Hybrid / Onsite
  -  Full-Time or Part-Time
  -  The Copia Group, LLC
  -  Senior Level
- 

## About The Copia Group

The Copia Group is an investment management and technology-focused firm supporting innovative companies across fintech, digital infrastructure, and emerging technology sectors.

We collaborate on projects connected to Stripe's ecosystem, helping build scalable payment systems, developer-focused platforms, financial infrastructure, and next-generation commerce solutions used by businesses globally.

We are growing our product and design organization and seeking experienced designers passionate about crafting intuitive, scalable, and impactful digital experiences.

---

## The Opportunity

We are seeking a Senior Product Designer to help design modern fintech and commerce products across web platforms, payment systems, and developer-focused applications.

In this role, you will work closely with product managers, engineers, and stakeholders to create user-centered experiences that balance usability, scalability, and business impact.

This is a high-impact role offering strong ownership, creative influence, and the opportunity to shape products used across modern financial platforms.

---

## What You'll Do

### Product & UX Design

- Design intuitive, user-focused experiences across web and platform products
- Create wireframes, user flows, prototypes, and high-fidelity UI designs
- Build scalable and consistent design systems and component libraries
- Translate complex product requirements into elegant user experiences
- Design workflows for fintech, payments, dashboards, and developer platforms

### Research & Strategy

- Conduct user research, usability testing, and design validation
- Collaborate with product and engineering teams to define product direction
- Use customer feedback and data insights to improve user experience
- Contribute to product strategy and long-term platform vision

### Collaboration & Execution

- Work closely with engineers to ensure high-quality implementation
  - Participate in product planning, design critiques, and cross-functional reviews
  - Maintain design consistency across products and platforms
  - Help establish design standards, workflows, and best practices
- 

## What We're Looking For

### Required Experience

- 5+ years of experience in product design, UX/UI design, or related fields
- Strong portfolio showcasing modern web and platform design work
- Expertise in user-centered design principles and interaction design

- Experience designing scalable digital products and design systems
- Proficiency with tools such as Figma, Sketch, Adobe Creative Suite, or similar
- Strong understanding of responsive design and modern UI patterns
- Excellent communication, collaboration, and presentation skills

## Nice to Have

- Experience designing fintech, SaaS, payments, or infrastructure platforms
  - Familiarity with developer tools, dashboards, or data-heavy applications
  - Experience working closely with frontend engineering teams
  - Knowledge of accessibility and usability best practices
  - Startup or high-growth product experience
- 

# Tools & Design Stack

## Design & Prototyping

Figma • FigJam • Adobe Creative Suite • Prototyping Tools

## Collaboration

Jira • Notion • Slack • Miro

## Product & Analytics

User Research • Design Systems • UX Testing • Product Analytics

---
