

Senior System Engineer

Infrastructure & Platform Operations

-  Remote / Hybrid / Onsite
 -  Full-Time or Part-Time
 -  The Copia Group, LLC
 -  Senior Level
-

About The Copia Group

The Copia Group is an investment management and technology-focused firm supporting innovative companies across fintech, digital infrastructure, and emerging technology sectors.

We collaborate on projects connected to Stripe's ecosystem, helping build scalable payment systems, financial infrastructure, developer-focused platforms, and modern commerce solutions used by businesses globally.

We are expanding our infrastructure and systems organization and seeking experienced System Engineers passionate about building reliable, scalable, and secure infrastructure environments powering modern technology platforms.

The Opportunity

We are seeking a Senior System Engineer to help design, maintain, and optimize enterprise infrastructure and cloud environments supporting fintech and commerce platforms.

In this role, you will work closely with DevOps, security, and engineering teams to manage systems infrastructure, improve operational reliability, automate workflows, and support scalable platform operations across cloud and hybrid environments.

This is a high-impact technical role offering strong infrastructure ownership and the opportunity to contribute directly to modern platform operations and engineering initiatives.

What You'll Do

Infrastructure & Systems Engineering

- Design, deploy, and maintain scalable server and infrastructure environments
- Manage cloud and on-premise systems supporting platform operations and engineering teams
- Configure and maintain Linux and Windows server environments
- Support networking, storage, virtualization, and infrastructure services
- Monitor system performance, reliability, and operational health

Automation & Operations

- Automate operational workflows, deployments, and system maintenance processes
- Improve infrastructure scalability, reliability, and availability
- Support backup, disaster recovery, and business continuity initiatives
- Troubleshoot infrastructure incidents, outages, and performance issues
- Maintain infrastructure documentation and operational procedures

Security & Collaboration

- Implement infrastructure security best practices and access controls
 - Collaborate with DevOps, security, and software engineering teams
 - Participate in infrastructure planning, upgrades, and migration initiatives
 - Support CI/CD workflows and operational tooling
 - Contribute to system standardization and operational improvements
-

What We're Looking For

Required Experience

- 5+ years of professional systems engineering or infrastructure engineering experience
 - Strong experience managing Linux and/or Windows server environments
 - Experience with cloud platforms such as AWS, Azure, or GCP
 - Strong understanding of:
 - systems administration
 - networking and infrastructure services
 - virtualization and storage systems
 - monitoring and troubleshooting
 - infrastructure security and access management
 - Experience with scripting and automation tools such as Bash, PowerShell, or Python
 - Familiarity with CI/CD workflows and infrastructure automation
 - Strong analytical, troubleshooting, and communication skills
-

Preferred Experience

- Experience working in fintech, SaaS, or infrastructure-focused environments
 - Familiarity with Docker, Kubernetes, or containerized infrastructure
 - Experience with Infrastructure as Code tools such as Terraform or Ansible
 - Experience with monitoring and observability tools
 - Knowledge of backup, disaster recovery, and high-availability systems
 - Startup or high-growth technology environment experience
-

Tech Environment

Infrastructure & Systems

Linux • Windows Server • Virtualization • Networking

Cloud & Automation

AWS • Azure • GCP • Terraform • Ansible

Monitoring & Operations

Prometheus • Grafana • Datadog • ELK Stack

Tools & Collaboration

GitHub • Jira • Slack • Notion

Why Join Us

- ✦ Flexible remote, hybrid, and onsite work options
 - ✦ Full-time and part-time opportunities
 - ✦ Competitive compensation
 - ✦ High-impact infrastructure ownership
 - ✦ Collaborative and engineering-focused culture
 - ✦ Opportunity to work on innovative fintech and infrastructure platforms
 - ✦ Long-term growth and leadership opportunities
-

Apply

If you are passionate about infrastructure engineering, scalable systems, and supporting modern technology platforms, we'd love to connect with you.
